

CODE BREAKER

THINK • GUESS • SOLVE • WIN!

CAN YOU
CRACK
THE CODE?

1 SECRET CODE IS SET

I have already
chosen a secret
code using
4 coloured pegs.

The code uses
these colours:

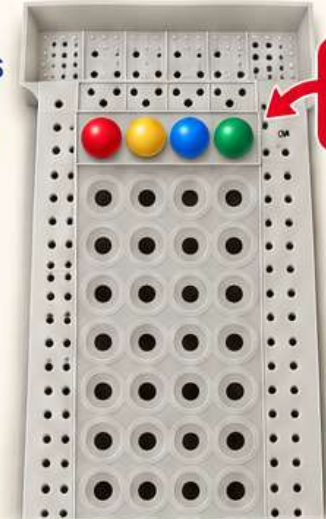

The same colour
can be used
more than once.

2 YOUR TURN: MAKE A GUESS

Pick 4 coloured pegs
from the box and
place them in a row
on the board
(from left to right).

This is your guess.

Your
guess
(here)

3 GET YOUR CLUES

After each guess,
I will place small
red and white pegs
in the holes on the right
as clues.

Red peg
= correct colour
in the correct
position

White peg
= correct colour
in the wrong
position

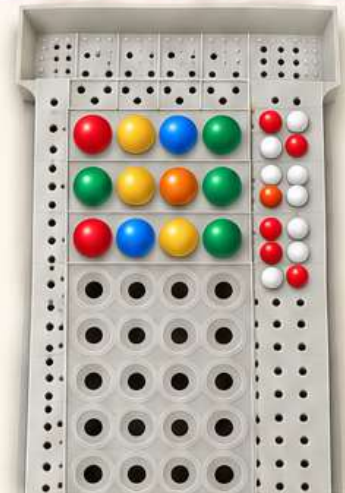

Clues
(here)

4 THINK AND GUESS AGAIN

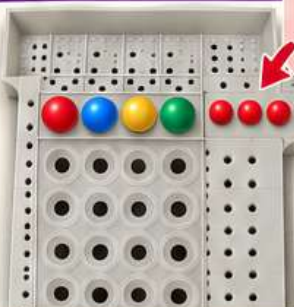

Use the clues to
think and make
your next guess.

Keep guessing
row by row until
you find the secret
code or the board's
rows are used.

5 YOU WIN!

You win when your
guess matches all
4 colours in the
correct positions.

All 4 red
pegs =
You win!

6 NEXT PLAYER

Once you find the code
or the rows are used,
the next person can play
a new round with
a new secret code.

Let's see if you can crack the code!
