FLOATING TOWER

Stall In-charges	John and Nathanael
Entry Cost	30 Tokens per play
Standard Time Limit	1 minute
Kid's Concession Time	1.5 minutes (Wrist Tag 'C')
Props Provided By	Stall In-Charges

Prepared for Stall Volunteers & Coordinators

QUICK REFERENCE CARD

Everything a volunteer needs at a glance.

Entry Cost	30 Tokens per play
 Time Limit	1 minute to stack & balance
 Full Score	3 points — all 4 cans stacked & balanced 7 seconds unsupported
 Kid's Concession	Wrist Tag 'C' — 1.5 minutes, 2 points for 3 cans held 5 seconds
 Props Responsibility	Stall in-charges bring the basin, water, leaf plate, 4 cans & stopwatch
 Need Help?	Go to the Admin / Gift Counter for any doubt or on-spot guidance

1 STALL OVERVIEW

1.1 What Is Floating Tower?

Floating Tower is a delicate balance challenge. Players stack empty soda cans onto a leaf plate floating in a basin of water, trying to build and hold a steady tower without it tipping over.

1.2 Objective for Players

Stack as many of the 4 cans as possible on the floating leaf plate and keep the tower standing unsupported for the required hold time, within the time limit.

2 PROPS NEEDED

2.1 Equipment Checklist

Item	Qty	Notes
Bowl / basin of water	1	Placed on the table as the base
Leaf plate	1	Floats on the water; cans are stacked on it
Soda cans (empty)	4	Stacked one on top of the other on the leaf plate
Stopwatch / Timer	1	Used to enforce the time limit and the hold time

PROPS RESPONSIBILITY

Props for this stall are not collected at the Admin / Gift Counter — they must be brought by the stall in-charges.

3 GAME SETUP

3.1 Setup Steps

1. Place the basin of water on the table, with the leaf plate floating on the water.
2. Set the 4 empty soda cans beside the basin, ready for the player.

4 HOW TO PLAY

4.1 Play Sequence

1. Player pays 30 Tokens at the stall counter to begin.
2. Volunteer starts the stopwatch as soon as the player begins stacking.
3. Player stacks the soda cans one on top of the other on the floating leaf plate.
4. Once stacked, the player lets go and the tower must stand completely unsupported, without any contact.
5. The tower must hold steady for the required number of seconds (see Section 5) for that attempt to count.
6. Standard time limit for the full attempt is 1 minute.
7. Volunteer calls time and checks how many cans were stacked and whether the tower held for the required duration.

RULE OF THUMB

The tower must stand completely unsupported — no touching — for the hold time to count.
If the tower tips over before the hold time is reached, that attempt does not count.
The player may keep restacking within the 1-minute time limit until time runs out.

5 POINT DISTRIBUTION

5.1 Standard Scoring

Condition	Points
Stack all 4 cans, balanced unsupported for 7 seconds	3 points
Stack only 3 cans, balanced unsupported for 7 seconds	1 point

If the player stacks fewer than 3 cans, or the tower does not hold unsupported for the required hold time, no points are awarded under the standard rules.

6 KID'S CONCESSION

6.1 Who Qualifies

This concession applies only to participants with the extension 'C' on their Wrist Tag.

6.2 Concession Rules

Rule	Detail
Time Limit	1.5 minutes (extended from the standard 1 minute)
Scoring	2 points if they stack 3 cans and hold for 5 seconds without support

CHECK BEFORE YOU START

Always check the player's Wrist Tag for the 'C' extension before applying Kid's Concession timing and scoring. Without the 'C' extension, the standard rules in Sections 4 and 5 apply.

7 SUPPORT & ON-SPOT GUIDANCE

For any further doubt or on-spot guidance, volunteers and players should go to the Admin / Gift Counter.
