 Props Pickup	Collect 9 pins, 1 nerf gun & 5 bullets from Admin / Gift Counter
 Need Help?	Go to the Admin / Gift Counter for any doubt or on-spot guidance

1 STALL OVERVIEW

1.1 What Is Target Shoot-Out?

Target Shoot-Out is a precision shooting challenge. Nine pins are set up at varying distances and heights, and the player uses a nerf gun to try to knock down as many pins as possible.

1.2 Objective for Players

Knock down as many of the 9 pins as possible within the tries given to earn the highest point tier.

2 PROPS NEEDED

2.1 Equipment Checklist

Item	Qty	Notes
Pins	9	Set up at varying distances and heights
Nerf gun	1	Loaded and fired by the player
Bullets	5	Reused / reloaded to make up the 9 total tries

PROPS PICKUP

All props for this stall must be collected at the Admin / Gift Counter at the start of the Fest.

3 GAME SETUP

3.1 Setup Steps

1. Place all 9 pins at varying distances and heights.
2. Load the nerf gun with the 5 bullets, ready to be fired.

4 HOW TO PLAY

4.1 Play Sequence

1. Player pays 30 Tokens at the stall counter to begin.
2. Volunteer hands the player the loaded nerf gun.
3. Player fires at the pins, aiming to knock down as many of the 9 pins as possible.
4. Player gets 9 tries in total — since the gun holds 5 bullets, the volunteer reloads and reuses the bullets to make up all 9 tries.
5. There is no time limit for this game.
6. Volunteer counts how many pins are knocked down once all 9 tries are used.

RULE OF THUMB

Each shot counts as one try, whether it knocks down a pin or not.

The volunteer collects and reloads the 5 bullets between shots so the player gets the full 9 tries.

A pin only counts as knocked down if it is fully toppled.

5 POINT DISTRIBUTION

5.1 Standard Scoring

Pins Knocked Down	Points
1 – 2 pins knocked down	1 point
3 – 4 pins knocked down	2 points
5 – 6 pins knocked down	3 points
7 – 9 pins knocked down	5 points

Scoring is based on the total number of pins knocked down across all 9 tries, regardless of which specific pins fall.

6 KID'S CONCESSION

6.1 Who Qualifies

This concession applies only to participants with the extension 'C' on their Wrist Tag.

6.2 Tries Allowed

Kid's Concession players get 12 tries to knock down the pins, instead of the standard 9.
They are also allowed to come closer to the targets to shoot **(up to the discretion of the volunteers)**

6.3 Kid's Point Distribution

Pins Knocked Down	Points
1 – 4 pins knocked down	2 points
5 – 6 pins knocked down	3 points
7 – 9 pins knocked down	5 points

CHECK BEFORE YOU START

Always check the player's Wrist Tag for the 'C' extension before applying Kid's Concession tries and scoring.
Without the 'C' extension, the standard rules in Sections 4 and 5 apply.

7 SUPPORT & ON-SPOT GUIDANCE

For any further doubt or on-spot guidance, volunteers and players should go to the Admin / Gift Counter.
